VINYL BAY WINDOW
- 30 Degree Three Section Bay Window

VINYL BOW WINDOW
- 10 Degree Four Section Bow Window
- Also Available Three and Five Sections

Bay & Bow Window

Super Spacer®

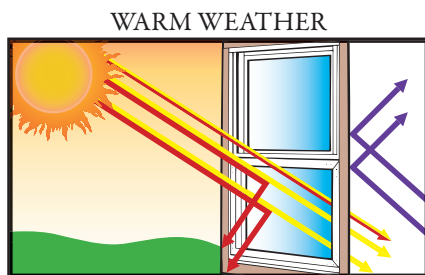

A 30 DEGREE BAY WINDOW - usually consists of a large fixed window between two casements or double hung units.

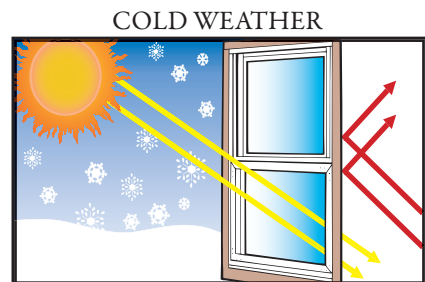

A 10 DEGREE BOW WINDOW - available Three, Four or Five Section - consisting of fixed lights, casements or double hungs, creating a smooth arc or bow.

PANORAMIC VIEW - Perfect for large openings, 7/8 inch insulated glass, quality mulling ensures precise angle joints. All joints are protected by specially designed covers that act as a rain shield. 1 1/8" solid birch head and seat boards with a factory applied vinyl skin on their exterior. A cable suspension system secures the window structure to the frame of the house for strength and stability. Birch head and seat boards can be stained or painted to match any décor. Interior vinyl covers create a smooth finished look.

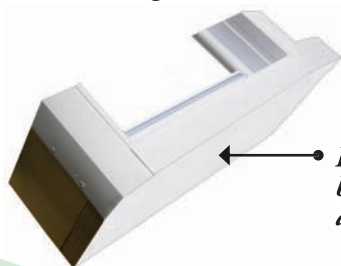

There are numerous ways you can customize a bay or bow window to match your home décor. Use casements, double hung's or fixed light styles. Choose no grids or contoured or flat grids between the glass.

Low-E Glass filters long-waves radiation. This reduces heat gain in your home from the sun in the summer, keeping your home cooler.

Low-E Glass takes on a new duty in winter months. It lets warm solar rays into your home while blocking the heat in your home from getting out.

Factory applied vinyl skin on both the exterior of the head and seat boards
